

The best choice for consumable supplies is Océ Pro-Select® inkjet media

Product Description

Instant dry photopapers, films, and specialty media for photo quality applications. The Océ Pro-Select media line is designed for 17-to 60-inch photo display graphics and proofing printers including models from Océ, Epson, Canon and HP. Wide color gamut and accurate skin tones plus superior shadow details with extremely low dot gain are standard with all Océ Pro-Select photopapers.

PSphot8S

Satin Photopaper 8 mil 200 gsm

PSphot8G

Glossy Photopaper 8 mil 200 gsm

PSphotS2

Satin Photopaper 9 mil 220 gsm

PSphotoG

Glossy Photopaper 10 mil 270 gsm

Semi-gloss Lustre Photopaper
8 mil 200 gsm

PSMatte

Matte Photopaper 7 mil 177 gsm

PSWHTFLM

Glossy White Film 5 mil

PSPOPUP

Glossy white film with Gray back
7 mil

PSBCKLIT

Universal Backlit Film 6.5 mil

A bright, white SATIN microporous topcoat offers universal compatibility, instant drying and water resistance on aqueous printers. The 8 mil base provides premium photographic quality at a lower cost.

A bright, white GLOSSY microporous topcoat offers universal compatibility, instant drying and water resistance on aqueous printers. The 8 mil base provides premium photographic quality at a lower cost.

A new resin coated base provides a more neutral b* value and accepts the same higher ink loads without bleed as PSphotoG. The bright, white SATIN microporous topcoat provides an instant dry, water resistant print and universal compatibility on aqueous printers.

A true resin coated base accepts higher ink loads with out bleed. The bright, white GLOSSY microporous topcoat provides an instant dry, water resistant print and universal compatibility on aqueous printers.

A true resin coated base accepts higher ink loads without bleed. The bright, white SEMI-GLOSS LUSTRE microporous topcoat provides an instant dry, water resistant print and universal compatibility on aqueous printers.

A high-density photorealistic base with a bright, white MATTE finish topcoat that accepts high ink loads without bleed, fast drying and water resistance. Universal compatibility with aqueous printers.

A Premium no tear, no-curl, white polyester film designed for applications where a thinner base is required. The HIGH GLOSS microporous topcoat provides an instant dry, water resistant print and universal compatibility on aqueous printers.

A Premium white polyester film with an integrated gray-back and no-tear, lay-flat performance, designed for display applications where light blocking is needed. The HIGH GLOSS microporous topcoat provides an instant dry, water resistant print and universal compatibility on aqueous printers.

A front print, polyester backlit film with a specially engineered microporous MATTE surface, creating even light diffusion and maximum image density, either front or backlit with an instant dry finish, that's universally compatible with all aqueous printers.

Océ Pro-Select® wide format printing inkjet media supplies

PSCFLM

Clear film for
Screen Positives
5 mil

A UV Clear film with a microporous topcoat specially engineered for creating inkjet screen positives, featuring a low UV Dmin and high UV Dmax, fast drying and water resistance with appropriate ink sets.

PSCANVAS

100% Cotton
Canvas 24 mil
400gsm

A 100% cotton MATTE canvas provides a wide color gamut and universal compatibility with all printers and ink sets. This acid free, water resistant, stretchable canvas is designed for long term, fade resistant museum quality prints with appropriate ink sets.

Printer Compatibility

A select line of instant dry photopapers, canvas and films designed for superior performance 17-to 60-inch display graphics photo and proofing printers including models from Océ, Epson, Canon and HP.
