## Premium Waterless Process and PANTONE Series for the Ultimate in Dry Offset Printing...

Today, waterless printing is as much of an art as it is a science. At Van Son we recognize this by combining the perfect balance between technology and ingenuity in our SonaDry Waterless Printing Ink Series. Known to have the industries widest Critical Tone Temperature (CTT), SonaDry will resist toning and mottle in a broad range – 63°F - 97°F. User friendly and trouble free, with SonaDry you will be able to print heavier ink films with higher color densities, lower dot gains, and exceptional rub resistance. Compatible with all waterless plates and presses, SonaDry is the ideal choice for premium dry-offset printing.

Can Size	Runs On All Waterless Presses	Stays Open Overnight	Work & Turnability	Laser Safe After 48-72 Hours	Works With All Waterless Plate Systems	Vacuum Packaging	High Rub Resistance	High Gloss
